

Disposable Head Blocks - Foam Orange Blocks

Morrison Medical's Head Blocks are a foam-filled, light-weight head immobilizer. This device is affordably priced to be disposable, yet is durable enough to be reused. The highly visible orange vinyl exterior is both puncture and water resistant, while offering a writable surface for easy ownership and patient identification. Morrison Medical offers compatible disposable head and chin straps that are ideal for use with Head Blocks.

- Rectangular (4 x 5 x 10") foam blocks sealed in highly visible orange vinyl, complete with handle and writable surface
- Offers firm yet lightweight support.
- X-ray translucent.
- Tape can be used to secure patient, but works great with Morrison Medical Disposable Head/Chin Straps (Item 1475).
- Adjustable to fit children and adults.
- Compatible with helmets.
- Easy to use and quick application.
- Disposable.
- Puncture and water resistant.
- Head Blocks float - ideal for water rescue.
