*Item #1429RD-6:
RedHead Head Immobilizer,
case of 6*

Morrison Medical is proud to introduce the newest member of the head immobilizer family, The RedHead. The RedHead is a lighter-weight and more economic version of the Big Blue. Produced from a less dense foam, Morrison Medical now offers you a lighter option that still delivers the durability and quality you've come to expect. View our entire line of head immobilizers at www.morrisonmed.com.

- Lighterweight version of The Big Blue head immobilizer.
- Vinyl coated foam for easy disinfecting.
- Extra large pillows provide maximum support.
- Easy access to ears for patient assessment.
- Pillows adjust and firmly attach to base with wide Velcro®.
- Secures to backboard with mounted straps and D-rings.
- Includes base with attached straps, two large pillows and two head/chin straps.
- Adaptable for pediatric patients with the use of pediatric head blocks (#1432).
